(a) Management utilizes the net operating income financial measure to monitor the Company's operations. Please refer to Note O in the Consolidated Financial Statements within CNA's Annual Report on Form 10-K for the year ended December 31, 2013 for further discussion of this measure.

Property & Casualty Operations' net operating income was \$241 million for the third quarter of 2014 as compared with \$330 million in the prior year quarter. This decline is due to lower net investment income and lower favorable net prior year development. After-tax catastrophe losses were \$10 million for the three months ended September 30, 2014, primarily due to U.S. weather-related events, as compared with \$28 million for the same period in 2013.

Our non-core segments produced a net operating loss of \$59 million in the third quarter of 2014, unchanged from the prior year quarter. The current year period included a \$34 million after-tax loss on an annuity coinsurance transaction related to the August 1, 2014 sale of Continental Assurance Company, as well as improved results in our long term care business and a reduction in the allowance for uncollectible reinsurance receivables.

After-tax net investment income decreased to \$346 million for the third quarter of 2014 as compared with \$386 million in the prior year quarter, reflecting reduced limited partnership returns.

Net realized investment gains increased \$27 million for the third quarter of 2014 as compared with the prior year quarter, driven by higher net realized investment gains on sales of securities.

Property & Casualty Operations

"Our year to date underlying loss ratios for both Specialty and Commercial continue to show improvement compared with full year 2013," said Thomas F. Motamed, Chairman and Chief Executive Officer of CNA Financial Corporation. "We remain focused on our strategy to provide our customers deep, industry-focused expertise and to drive underwriting margin improvement while accepting the tradeoff of growth."

- Net operating income increased \$5 million for the three months ended September 30, 2014 as compared with the same period in 2013. This increase was driven by improved underwriting results, partially offset by lower net investment income.
- The combined ratio decreased 3.7 points for the three months ended September 30, 2014 as compared with the same period in 2013. The loss ratio decreased 4.2 points, primarily due to an improved current accident year loss ratio, including lower catastrophe losses, and increased favorable net prior year development. Catastrophe losses were \$5 million, or 0.6 points of the loss ratio, for the three months ended September 30, 2014, as compared with \$13 million, or 1.7 points of the loss ratio, for the three months ended September 30, 2013.
- Net written premiums for the three months ended September 30, 2014 were down slightly as compared with the same period in 2013. Average rate increased 3% for the three months ended September 30, 2014, as compared with an increase of 6% for the three months ended September 30, 2013 for the policies that renewed in each period. Retention of 84% and 85% was achieved in each respective period.

- Net operating income decreased \$67 million for the three months ended September 30, 2014 as compared with the same period in 2013. This decrease was due to lower net investment income and higher unfavorable net prior year development.
- The combined ratio increased 5.3 points for the three months ended September 30, 2014 as compared with the same period in 2013. The loss ratio increased 5.5 points, primarily due to higher unfavorable net prior year development. Catastrophe losses were \$15 million, or 1.9 points of the loss ratio, for the three months ended September 30, 2014, as compared with \$24 million, or 2.9 points of the loss ratio, for the three months ended September 30, 2013.
- Net written premiums decreased \$51 million for the three months ended September 30, 2014 as compared with the same period in 2013, driven by a decreased level of new business and underwriting actions taken in certain business classes, partially offset by continued rate increases. Average rate increased 4% for the three months ended September 30, 2014, as compared with an increase of 8% for the three months ended September 30, 2013 for the policies that renewed in each period. Retention of 74% and 72% was achieved in each respective period.

Financial Measures

In the evaluation of the results of CNA Specialty, CNA Commercial and Hardy, management utilizes the loss ratio, the expense ratio, the dividend ratio and the combined ratio. These ratios are calculated using financial results prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The loss ratio is the percentage of net incurred claim and claim adjustment expenses to net earned premiums. The expense ratio is the percentage of insurance underwriting and acquisition expenses, including the amortization of deferred acquisition costs, to net earned premiums. The dividend ratio is the ratio of policyholders' dividends incurred to net earned premiums. The combined ratio is the sum of the loss, expense and dividend ratios.

This press release may also reference or contain financial measures that are not in accordance with GAAP. For reconciliations of non-GAAP measures to the most comparable GAAP measures, please refer herein and/or to CNA's most recent 10-K on file with the Securities and Exchange Commission, as well as the financial supplement, available at www.cna.com.
