CyberAssist from CNA

Helping Your Clients Stay Ahead of Cyber Risk

As cybercrime grows in sophistication, frequency and severity, it's clear why cyber risk is one of the top risk concerns of companies globally. However, not all cyber coverage delivers the same outcome.

CyberAssist provides policyholders with a suite of industry-leading resources from multiple vendors that support the full cycle of cyber, privacy and regulatory preparedness. Brokers can place coverage with confidence – backed by more than two decades of cyber insurance experience and a carrier with 125+ years of stability and financial strength.

Why Brokers Choose CyberAssist from CNA

Claims expertise that leads the response. Our dedicated cyber claims specialists bring deep technical and legal expertise to help clients navigate complex incidents with speed, coordination and confidence.

Proven experience in the real world. With decades of cyber insurance expertise and long-standing financial strength, CNA provides the stability brokers and clients rely on when a breach occurs.

Leadership that sets the standard. Our cyber team is built on experienced industry professionals who are widely respected across the cyber insurance market – bringing insight, discipline and credibility to every risk.

With CyberAssist, we work with policyholders to:

Identify Risk

Through built-in assessments and advisory services, organizations can understand their exposure across ransomware readiness, identity access management and evolving AI and privacy regulations.

Reduce Risk

We focus on the controls that most directly influence cyber loss severity – identity security, endpoint protection, employee behavior and ransomware containment.

Watch for Trouble

Our cybersecurity specialization and deep expertise help organizations remain vigilant against emerging threats.

Respond and Recover

Reducing downtime and business impact is critical in the event of an incident. Our team equips businesses to build resilience, respond and recover quickly.
