# Solutions for Technology Customers at Every Stage of Growth

## CNA Canada provides relevant coverages that quickly respond to emerging technology risks

Today's tech companies face an ultra-competitive environment and must constantly innovate. They need an insurance partner they can count on as they grow and evolve. At CNA, we're dedicated to providing you the tools and resources you need to be the trusted advisor to your technology clients and help them navigate their dynamic business environment.

### Positioned at the Forefront of Innovation

CNA's technology team is backed by decades of direct industry experience and the financial strength of an "A" A.M. Best rated carrier. Whether your concerns are privacy, cloud computing or other emerging risks, our dedicated professionals stay ahead of the technology curve. We identify emerging trends and leverage our expertise to develop the coverages and services your customers need to respond to risks, now and into the future.

### Flexible Solutions Spanning the Technology Universe

CNA insures a wide variety of technology companies. We serve companies in the software, programming, IT consulting, and telecommunications space, to manufacturers and distributors of electronics, instruments, communications equipment and component parts, to content creators and providers. CNA considers not just what the company does, but also for whom it works, allowing us to write a broader range of businesses than most other carriers in the marketplace.

### A Local Expert with Access to Global Expertise

Our local experts work with you to be your single, go-to source for technology industry knowledge and client insurance needs — even into the international marketplace. They coordinate coverages to protect against all of your technology customers' risks, while eliminating coverage gaps and overlaps to help protect independent brokers' exposures as well. Our broad portfolio includes the coverages critical for today's tech business:

- Tech E&O
- Property and General Liability
- Media Liability
- Information Risk
- International
